

Admission Guidelines

1. Participants are admitted regardless of race, gender, religious or national origins.
2. Participants must have adequate assistance outside of the Tiffany's Adult Day Care program.
3. Participants must be under the care and regular supervision of a physician.
4. Participants must be free of infectious or communicable disease and all acute medical conditions must be stabilized.
5. Participants must agree to take medications as currently prescribed by attending physician(s).
6. Participants must not exhibit behaviors that constitute a danger to himself/herself or others, or be physically or verbally abusive to other participants and staff. Nor can we accommodate participants who frequently exhibit behavior such as crying or screaming, which is likely to upset other participants.
7. Participants must be willing to cooperate with staff in attending to his/her basic needs.
8. Wheelchair bound participants must be able to transfer with the assistance of no more than one person.
9. Participants must be continent of bowel and bladder or his/her incontinence managed with routine toileting and/or incontinence products.

READMISSION

If a participant has been hospitalized or has had a change in condition, current physician orders must be obtained before the participant can return to the program.
